

Tachometer

SEAFIRST

Pulse Adjustment

NO	1	2	3	4	5	6	7	8	9	0	Tachometer Part No.
Pulse	118	142	213	158	131	208	235	-	128	-	TG3814AH, TG3814AN, TG4814AH, TG4814AN

- * Set an exact pulse or similar one if there is no exact one.
- * Do a fine adjustment if there is difference in between real RPM and RPM shown on the tachometer
- * The most importance is the distance between gear teeth and sensor. It should be 0.3~0.5mm
